Law firm goes open plan

Anderson Lloyd's newly completed offices in Britomart's prestigious Australis Nathan Building are bright and contemporary in an open plan layout helping to achieve their vision for collaboration and staff wellbeing. The open plan workspace is adjacent to several meeting spaces, a wellness room, large boardroom and a multi-use café space.

Featuring exposed brick walls and native timber beams, STACK has created a light and inviting environment using a mix of textured materials while ensuring the historic features of the space are retained. On arrival, guests are greeted by a black steel framed screen that provides an elegant backdrop to the reception while also providing a veiled view of the space beyond.
