STACK

Creating a vibrant and fun workplace

Toyota Finance wanted to create a bold, striking image in their new offices. Their brief was clear: a fun and exciting place to work that is “very Toyota”. In response, STACK designed an open style environment, which included a new interconnecting staircase. Bold lines, simple colour choices and strong shapes reflect the brand. Spaces are open and flexible, with a range of connected meeting spaces, breakout and team working areas. A bright, industrial-themed café acts as a hub for the team.
